In the matter of:

DOCKET NO. S-20844A-12-0122

SEED CORPORATION, an Arizona
Corporation dissolved by administrative
action;

RANDALL DUANE SIMONSON and
MARILYN J. SIMONSON, husband and
wife; and

KARL HENRY REHBERG AKA SHAWN
PIERCE, and HELEN REHBERG AKA
LISA PIERCE, husband and wife;

Respondents.

DM

31 December 2012

I, Randall Simonson, President of the SEED Corporation would like to request the following:

1. Mid November I went to an attorney who was willing to work with us on a meager budget. He was young and aggressive and I left the meeting feeling confident. He called me the evening of December 28 to let us know that he had gone home for Christmas and while there he had taken a position in a company as their council and would not be able to help us. I would request a 90 day extension.
2. Remove the no contact requirement. Over the holiday we received several calls from shareholders asking why we had not been in contact for this year. I told them that Mr Steven Briggs at the Corporation Commission was investigating SEED and that he had instructed me not to contact any of our shareholders. They know how Shawn and Lisa Pierce were in charge of stock sales and would be willing to help us. I am requesting that the court remove the requirement by Mr Briggs not to make contact with anyone.
3. Please return the boxes of SEED's files to the Simonsons. I had the files for SEED stored in plastic containers. Storm damage caused roof leaks and the containers held water destroying our copies. I would need the SEED files to copy for the new attorney. I am also requesting 2 sets of electronic files from Mr Steven Briggs office and copies of court files to give to the new attorney.
4. SEED spent \$80,000 with Fennemore Craig Attorneys to make sure that after Shawn and Lisa Pierce were arrested that SEED was doing everything within the law including filing a new PPM. (This was after the FBI and government inquiries had returned our files and had cleared us of any wrong doing) After 5 months we finally received approval to move ahead but the economy had changed drastically. Because we could not operate during that five months there were no additional stock sales and we were forced to close down. We tried many variances to keep the company alive but even the banks were closing down. We spent five years and all of our family savings to make SEED a success. Shawn and Lisa were the fund raising success and were to receive 50% of the Simonson stock. As fate would have it, the past caught up with the Pierces and now they have spent their time in jail for fraud.

Mr Steven Briggs, esq of the the Corporation Commission stated that if the Simonsons would sign a statement to repay the shareholders plus costs of approximately \$1.5 million he would not pursue fraud charges against the Simonsons but the Attorney General would pursue collections. We, the Simonsons, feel that we have been as much a victim of the economy as our shareholders have been.

Last year my wife had to have her aorta valve replaced in her heart. The expenses and stress have left her sleeping most of the day. We are 70 years old and living on our social security (and thankful for it) But we have no additional funds for attorneys. I have read in the letters from court that the Honorable Judge can make a judgment on our case. I would request that you please vacate this law suit.

Respectfully submitted,

Randall D. Simonson
